## SUBJECT

follow-up on 8/6/81 inspection of SKF Ind, Inc. (CAD 003026606)

## SUMMARY OF COMMUNICATION

I called Mr. Killian to ask him if the problems found during the SKF inspection had been corrected. He stated that the facility was reinspected during either January or February of 1982 and at that time the facility was in compliance with RCRA req.

## HAZARDOUS WASTE INSPECTION REPORT

Part C - Comments

Date of inspection 8-6-81 Identification number PAD003026606  
Company, Installation name SKF INDUSTRIES, INC.  
County FRANKLIN Municipality SHIPPENSBURG BOROUGH

PROCESSES AT THIS FACILITY INCLUDE METAL PROCESSING, PLATING,  
CLEANING AND HEAT TREATING.

HAZARDOUS WASTES PRODUCED ARE:

FOO1 - SHIPPED IN DRUMS, NONE PRESENT AT TIME OF INSPECTION

FOO6, FOO7, FOO8, FOO9 - TREATED AND STORED IN HOLDING TANKS.

DOO2 - RESIDUE FROM CLEANING CONTAINERS, TREATED WITH ABOVE WASTES -  
FOO6-9.

FO10, FO11 - WASTE FROM HEAT TREATING, NOT YET REMOVED FROM  
PROCESS.

DOO8 - METAL WORKING COOLANT WASTE, STORED IN UNDERGROUND  
TANK AND DRUMS. DRUMS ARE EMPTIED BY ~~SHIPPER~~ SHIPPER AND  
NOT TAKEN OFFSITE.

THERE ARE TANKS IN THE TREATMENT PROCESS,

75.265(i) A CONTINGENCY PLAN SHOULD BE DEVELOPED AND  
IMPLEMENTED WITHIN 45 DAYS OF THIS INSPECTION. THE GUIDELINES  
WHICH WERE RECEIVED FROM THE DEPARTMENT SHOULD BE USED FOR  
THIS PLAN. THE FIRE BRIGADE PLAN IS A GOOD START FOR THE  
CONTINGENCY PLAN.

75.265(4)(6) THE PERTINENT RECORDS FOR EMPLOYEES CONCERNING  
TRAINING SHOULD BE DEVELOPED AS SOON AS POSSIBLE.

This inspection report is official notification that a representative of the Department of  
Environmental Resources, Bureau of Solid Waste Management, inspected the above installation.  
The findings of this inspection are shown in this report. Any violations which were uncovered  
during the inspection are indicated. Violations may also be discovered upon examination of the  
results of laboratory analyses and review of Department records. Notification will be forth-  
coming, confirming any violations indicated herein and listing any additional violations.

August 10, 1981

Mr. W. Baturka  
SKF Industries Inc. - Roller Bearing Division  
West King Street P.O. Box 70  
Shippensburg, PA 17257

Dear Mr. Baturka:

This is to acknowledge that the Environmental Protection Agency has completed processing the information submitted in your Part A Hazardous Waste Permit Application. It is the Agency's opinion, based on the assumption that the information submitted is complete and accurate, you as an owner or operator of a hazardous waste management facility have met the requirements of Section 3005(e) of the Resource Conservation and Recovery Act (RCRA) for Interim Status. EPA has not verified the information submitted. If it is determined that the information is incomplete or inaccurate, you may be asked to provide additional information or in certain circumstances it may be determined that you do not qualify for interim status. In addition, this notice does not preclude a citizen from taking legal action under the provisions of Section 7002 of RCRA.

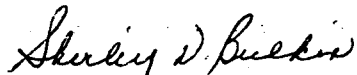

A facility not meeting the requirements for interim status under Section 3005 of RCRA may be required to close until such time as a hazardous waste permit is issued. Interim status may also be terminated, according to procedures in 40 CFR Part 124, if the owner or operator fails to furnish additional information which EPA requests in order to process a permit application.

As an owner or operator of a hazardous waste management facility, you are required to comply with the interim status standards as prescribed in 40 CFR Parts 122 and 265 or with State rules and regulations in those States which have been authorized under Section 3006 of RCRA. In addition, you are reminded that operating under interim status does not relieve you from the need to comply with all applicable State and local requirements.

The enclosure to this letter identifies the processes your facility may use, their design capacities, and types of waste your facility may accept during interim status. This information was obtained from the Part A Permit Application. If you wish to handle new wastes, change processes, increase the design capacity of existing processes, or change ownership or operational control of the facility, you may do so only as provided in 40 CFR Sections 122.22 and 122.23.

If you have any questions concerning this letter, please write to the address shown or call Bill Walsh at 215/597-1230.

Sincerely yours,

Shirley D. Bulkin  
Chief, Administrative Support Section  
Permit Enforcement Branch

Dear Mr. Budd,

This is to advise you that we are submitting a revised permit application which is enclosed. This has been done to make the corrections which were the subject of my letters dated June 9, and 18, 1981.

Also, this has been done since we must file original signature copies with Pennsylvania DER. I have not included any of the maps, plant drawings, or photographs submitted with the original application as those are still valid.

I trust this is satisfactory if you have any questions, please contact me after our plant closedown July 20 through 31, 1981.

Sincerely,

Charles D. Hocking

Dear Mr. Budd:

In response to your recent telephone call and our subsequent conversations, the following corrections should be made to our permit application.

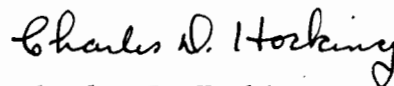

On Form 1, change facility contact to Hocking, Charles D., Plant Engineer. On Form 3, Page 1, Line 8, delete entire line as the water disposed of in the injection well is not hazardous per EPA definition; Page 3, Line 17, change EPA Hazardous Waste No. to D 002.

We have received the analysis of waste metal working coolants listed on Line 18. Based on the analysis just received the level of lead present exceeds EPA limits so this waste would be classified D 008.

Thus, we request that you change Line 18 to D 008.

If you have any additional questions, please contact me.

Sincerely,

Charles D. Hocking

Dear Mr. Budd:

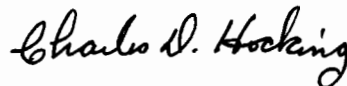

In response to your recent telephone call and our subsequent conversations, the following corrections should be made to our permit application.

On Form 1, change facility contact to Hocking, Charles D., Plant Engineer. On Form 3, Page 1, Line 8, delete entire line as the water disposed of in the injection well is not hazardous per EPA definition; Page 3, Line 17, change EPA Hazardous Waste No. to D 002.

The waste metalworking coolants listed on Line 18, which are principally a soluble oil water emulsion, will probably not be hazardous per EPA definition. There is presently a representative sample out for analysis to determine if this assumption is correct. Rather than delay this response, I felt it would be wise to inform you as it may be several weeks before these results are received.

As soon as these results are finalized you will be advised. At that time, do you wish us to submit a revised application?

Sincerely,

Charles D. Hocking  
Plant Engineer

Dear Ms. Bulkin,

I recently reviewed our permit application form and discovered that I had made an error in notation of page 1, line 8, of form 3. Originally the units of measure were expressed as gallons (G), but should have been given as gallons per hour(E).

Please correct this discrepancy. If you have any questions or comments please contact me. Enclosed you will find a revised copy of this page. Thank you.

Sincerely,

Dear Mr. Schroll:

The Environmental Protection Agency (EPA) has reviewed for completeness Part A of a RCRA permit application for the facility referenced above. The Agency has determined that the Part A permit application is incomplete. The items we found missing from the application are marked on the enclosed check list. All missing items marked with an asterisk (\*) should be completed on the application form and the form returned to this office by April 13, 1981.

If the applicant fails or refuses to correct the deficiencies in the application within the time set forth above, the Agency may (1) determine that the applicant failed to qualify for interim status; (2) deny the permit; and (3) commence enforcement action under applicable statutory authority, including Section 3008 of the Resource Conservation and Recovery Act.

If you have any questions, please contact Joan Henry on (215) 597-8751 or Bill Walsh on (215) 597-1230.

Sincerely yours,
